Glinda,

I have just sent this to Lynsey. I believe she is going to review it then discuss it with you.

Thanks,

**Subject:** RE: FFL CHANGES

Did this run? Are the changes OK? Would love to get sign off on the excel sheet which are the main items. We can work on anything else later with a new invoice, our goal being to keep the lawyers happy J

Please advise.

Thanks Robert. That makes sense because I couldn't see any changes. I will look again tomorrow.

Thanks,

Kathy:

1. I checked the server again and it looks as if the full refresh did not complete last night. I started it before I went to bed, but something apparently killed it. I'm not sure if it was a backup or something else, but I also noticed my AAC VPN connection was killed overnight too. Anyway...I will start it again tonight, but earlier so I can ensure it completes. None of the changes will appear unless we do complete refresh of all transactions in the Bound Book. I don't run it during the day because it makes DBA very slow, and we don't want to get Mers' blood pressure up.
2. Also, for anyone that doesn't know, we changed the Bound Book logic so that when you do a normal refresh (not the one I'm doing), we only update the NEW transactions and it doesn't do a full refresh of everything anymore, which makes it much faster.

Thanks...

Robert

Robert,

Should this be working?

Thanks,

**Subject:** FFL CHANGES

Glinda:

FYI, we loaded the latest update with the s/n fix and FFL changes. I need to do a manual, complete refresh tonight (it slows DBA considerably), but from then on any Bound Book refresh should insert the FFL where available. In cases

where there should be an FFL but an address is displaying, it means they entered it manually in the Bound Book and if they double click the transaction and clear the detail field, it will automatically insert the FFL.

Thanks...

Robert

Should print FFL Number and NOT address when available.
